/ | Identity first; inspect a system next

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Identity + approved headline

Maheen Hamid AI Engineer | Full-Stack AI Systems Short story: connecting AI with usable full-stack products. Sialkot, Pakistan / remote and international preferred.

Explore systems | View CV*

02 Canonical avatar

Large editorial crop. Text stays outside artwork. Static version remains fully usable.

03 Interactive Blueprint [Illustrative system]

Interface -> API -> AI workflow -> Data / Evidence. Select a labelled component to read one explanation. Full text alternative below the diagram.

04 Selected work [conditional]

Only reviewed, published projects appear. Omit this module when none are ready.

05 Invitation

Short statement + Contact action.

* CV action appears after the separately supplied file is ready; otherwise offer Contact.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

M Maheen Menu

01 Name + headline

Role, short story, location and availability.

02 Primary actions

Explore systems / View CV when ready.

03 Avatar crop

Contained image; no floating overlay.

04 Blueprint steps

Vertical labels; tap for an explanation.

05 Work + contact

Work only if published; contact always available.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

02 About

/about | Motivation, factual background and working principles

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Why I chose AI engineering

Use the owner-supplied first-person story. Explain the interest in real problems and complete products. No invented career anecdotes.

02 Identity portrait

Smaller canonical avatar crop.

03 Working principles

Define the problem / connect the system / evaluate the result / explain tradeoffs. Present as principles, not fabricated employment evidence.

04 Confirmed facts

BS Computer Science / University of Sialkot / Sialkot, Pakistan. No unprovided dates.

05 Availability + next step

Jobs, internships, selected freelance. Remote and international preferred. CV when ready / Work / Contact. Relocation not promised.

No invented timeline, testimonials, certificates or years-of-experience counter.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

M Maheen Menu

01 Story

Owner-supplied first-person motivation.

02 Avatar

Small identity crop.

03 Education + location

Confirmed facts only.

04 Working principles

Short, readable list.

05 Availability + actions

CV when ready / Work / Contact.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

03 Projects

/projects | Provisional collection with honest publication states

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Projects

Engineering case studies. Content will expand when Maheen supplies new work.

02A Empty state [current-content-safe option]

Project case studies will be added here. Show Systems Lab and Contact links. No empty filters, fake cards or promised dates.

OR: use the populated collection only after content is reviewed

02B Verified project media

Actual image if available; otherwise text-led entry.

02B Published project entry

Title / real status / problem / supplied role / evidence. Open case study. Repeat only for reviewed entries.

03 Optional controls later

Filters only for a useful collection; zero-results state offers Reset. No forced filter bar for one project.

02A and 02B are mutually exclusive. No project selection or evidence request is made now.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

M Maheen Menu

01 Projects

Clear introduction.

02A Empty state

Systems Lab + Contact. No fake cards.

OR: 02B Published entries

One per row. Title, status and evidence link.

03 Filters if useful

Wrap controls; show result count and reset.

04 End of collection

Normal footer navigation.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

04 Project case study

/projects/[slug] | Repeatable template; publish only with supplied evidence

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Breadcrumb + project summary

Title / actual status / user problem / supplied personal contribution / available demo and evidence links.

02 On this page

Problem Contribution Product Architecture Verification Limitations

03 Problem + contribution

Constraints, intended user, exact role and collaboration context from supplied content.

04 Product | Architecture

Switch supporting media; the core article stays readable. Diagram has a text alternative.

05 Verification + outcomes

Source links and measured context if supplied. No invented metrics or empty metric counters.

06 Limitations + actions

Lessons / back to Work / Contact. Hide missing repo or demo links.

The generic template is not a public empty case study. Wukala-GPT receives no academic label.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

M Maheen Menu

01 Summary + actions

Title, status, problem, role and evidence.

02 Contents disclosure

Jump to labelled sections.

03 Problem + contribution

Readable article blocks.

04 Product / Architecture

Vertical diagram and text alternative.

05 Outcomes + limitations

Verified evidence; Work / Contact.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

05 Systems Lab

/systems | Deterministic examples; no AI service required

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Explore how the parts connect

Examples are illustrative unless linked to a verified project. Choose one area to inspect.

02 Choose an area

Linux Git Docker RAG Agents API / System design

03 Diagram / example

Small labelled relationship graph or command example. No fake live logs. Select a component to inspect it.

04 Explanation

Purpose / input / output / limitation. Evidence link only when a real source exists.

05 Previous / Next / Reset

06 Continue exploring

Read the full text explanation. Open AI Lab or a published case study when available.

No remote shell, invented commits or unlabelled synthetic telemetry.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

M Maheen Menu

01 Introduction

Illustrative-example label stays visible.

02 Area selector

Labelled dropdown or wrapping list.

03 Vertical steps

Tap or keyboard selection; no dragging.

04 Selected explanation

Purpose, input, output, limitation.

05 Controls + next route

Previous / Next / Reset / AI Lab.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

06 AI Lab

/ai-lab | Grounded profile tools and transparent workflow states

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Introduction + small avatar

Ask about Maheen using approved public sources. No contact-data gate. Read the data-use notice before submitting.

02 Modes: Ask about Maheen | Compare a role | Workflow trace

03 Input + action

Ask: question field and suggestions. Compare: paste job description. Trace: illustrative walkthrough or this response. Send/Compare/Run only on user action.

04 Sources / trace

Real citations and observable events. No hidden chain-of-thought. Illustration and actual run are distinct.

05 Result

Answer + evidence / requirement comparison + gaps / labelled workflow. No unexplained fit score or invented qualifications.

06 Recovery + disclosure

Pending / insufficient evidence / error / cancelled. Retry and clear. Privacy link and normal portfolio navigation remain available.

CV is available separately: do not claim CV-based matching until its file has been ingested.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

M Maheen Menu

01 Intro + mode selector

Small avatar; no floating obstruction.

02 Notice + input

Question or job text; clear action.

03 Pending / result

Stable reading position; errors actionable.

04 Sources + trace

Stack after answer, with labelled details.

05 Retry / clear / Privacy

No lead capture required.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

07 Contact

/contact | Direct professional contact with confirmed availability

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Discuss an opportunity

Open to AI Engineer jobs, internships and selected freelance work. Remote and international preferred. Sialkot, Pakistan. No relocation or response-time promise.

02 Email Maheen

maheen.hamid30@gmail.com Open mail client / Copy address. Copy feedback only after success.

03 Other public contact

Phone: +92 331 1432480 LinkedIn / GitHub; labelled links.

04 CV and professional context

View CV when file is ready. Short link to About or Work. No unnecessary contact form, automatic message or visitor account.

Phone is public; a WhatsApp integration is not assumed. Email click does not send automatically.

Footer: page links / Email / GitHub / LinkedIn / Privacy

MOBILE / reading order

04 Professional profiles

LinkedIn / GitHub.

05 CV when ready

No broken download action.

Footer / profiles / Privacy

Read from top to bottom. These are scrollable page schematics, not above-the-fold screenshots.

Boxes show purpose and order. Final typography, colour, exact spacing and assets are deferred to Phase 4.

08 Privacy

/privacy | Readable disclosure structure; final facts await Phase 4

DESKTOP / whole-page structure

M Maheen Work Systems AI Lab About Contact

01 Privacy + actual revision date

Explain handling in plain English. This wireframe is not a final privacy policy.

02 Contents

Submitted text Public sources External processing Storage / retention Deletion / contact

03 What enters the AI tools

Questions and optional job-description text. Explain what is processed and why before submission. Only approved public portfolio sources feed answers.

04 Processing and retention

Name actual providers and actual retention/deletion behaviour after Phase 4 decisions and implementation verification. Do not invent legal compliance, no-storage guarantees or expiry periods.

05 Choices + contact

Explain clear/reset and any real deletion route accurately. Contact by email. Return to AI Lab. Email links open an external mail client.

Release dependency: replace all planning placeholders with accurate, verified handling disclosures.

Footer: page links / Email / GitHub / LinkedIn / Privacy
